

PRAKHAR BHARGAVA

+91 98993 26396 • hello@prakhARBhargava.in • linkedin.com/in/prakhARBhargava35

Individual with hands-on experience leading *0-to-1 development* of AI products across manufacturing. Skilled in translating *user needs* into scalable solutions through *data-driven decision-making*, *UX research*, and *cross-functional execution*. Delivered measurable impact across 15+ product deployments, driving efficiency, quality improvement, and user adoption. Passionate about building technology that aligns *business goals* with *real-world outcomes*.

SKILLS

Project & Product Management: Problem Solving, Product Strategy, Road-map Creation, Stakeholder Management

Data Analytics: Exploratory Data Analysis, Data Visualization, Process Optimization

Programming & Development: Python, JavaScript (React, Tailwind, MUI), SQL, HTML/CSS, Flutter/Dart, Git

UX & Design Thinking: Human-Centered Design, Usability Testing, Wireframing, Prototyping, Interaction Design

Productivity Tools: Microsoft Suite, Miro, Notion, GitHub, Figma, Adobe Creative Suite, Jira/Asana, Confluence

WORK EXPERIENCE

Ripik AI, Noida: Senior Solutions Associate, Customer Success & Analytics July 2024 – Present

- Progressed from *Frontend Engineer* to *Solutions Associate* and currently serving as *Senior Solutions Associate*
- Led the *product lifecycle* for 15+ AI deployments across *Hindalco (Aluminum, Copper)*, *Vedanta (Zinc)*, *ITC*, and *Alicon*.
- Delivered a 25.2% reduction in rejections for an auto manufacturer by applying *data-driven SOP optimization*.
- Conducted *value discovery workshops* in Copper, Aluminum, and Paint industries, unlocking a business pipeline of INR 2 Cr+.
- Partnered with engineering, data, and UX teams to develop *SOP monitoring, quality improvement, and process optimization AI applications*.

Wadhvani AI, Delhi: UX/UI Design Intern May 2023 - July 2023, Feb 2024 - May 2024

- Designed workflows and conducted research for an *AI-based diabetic retinopathy screening product*, launched with *AIIMS & MoHFW*, targeting 20K+ screenings annually.
- Developed a *UX Playbook & Design System* to standardize usability across 30+ projects in 5 verticals.
- Contributed to AI-driven solutions in *Healthcare, Agriculture, Tuberculosis Screening, Education, and the G20 Summit*.

Government e-Marketplace, Delhi: UX/UI Design Intern May 2022 - July 2022

- Enhanced *Bid Participation & Registration journeys*, resolving 200+ user issues and reducing drop-offs by 36%.
- Built a scalable *Design System*, ensuring UI consistency across 100+ vendor-developed screens.

EDUCATION

Indraprastha Institute of Information Technology, Delhi 2020 - 2024

Bachelor of Technology, Computer Science and Design 8.20 CGPA

Relevant coursework: Data Structures & Algorithms, Advanced Programming, HCI, UX/UI, Data Mining, Data Analytics, Computer Networks, Operating Systems

Amity International School, East Delhi 2006 - 2020

PCM with Economics 12th: 94.2% | 10th: 92%

Highlight: Headboy, Student Council 2019-20; Team Leader, Youth Power; Represented India at Odyssey of the Mind, World Finals (USA).

ACADEMIC PROJECTS

Google Drive Me Crazy User Experience | Web-App Development

Led end-to-end product research and design to enhance Google Drive's navigation, UI, and space visualization, achieving a 102% increase in SUS and a 35.5% reduction in task time.

- Conducted *in-depth user research* to identify pain points in *navigation, usability, and file management*.
- Designed and prototyped *UI/UX solutions*, tested with users, and iterated based on feedback.
- Evaluated outcomes through *A/B testing* and *usability metrics*, demonstrating measurable efficiency improvements.

AR Playground

Experience Design | Game Design

Designed an AR-based interactive learning platform for children aged 3–5

- Conducted *market research* on early childhood education to define objectives and user needs.
- Led *product design and development* using Unity3D, C#, and XR Foundation, creating interactive experiences like *alphabet riddles* and *color sorting*.
- Implemented *iterative user testing*, optimizing usability and engagement through insights.

OTHER EXPERIENCE

1 Pixel Design Conf'23, IIIT Delhi: Convenor & Co-Founder

Aug 2022 – Jan 2024

- Drove a reach of 25K+, attracting 500+ participants from 30+ institutions and 50+ organizations.
- Secured INR 15L+ in sponsorships, achieving financial break-even in the 2nd edition.

Volunteers Covihelp, India: Co-founder & Social Media Head

Apr 2021 – Sep 2021

- Assisted 1,700+ individuals with COVID-19 resources and managed 300+ volunteers nationwide.
- Raised INR 1.31L for a cancer treatment case.
- Received recognition from *Dainik Bhaskar*, *Hindustan Times*, and *Republic*.

PUBLICATIONS & HONORS

- **ACM A-Grade Publication:** *Safar: Heuristics for AR Integration in Cultural Heritage*, Interactive Surfaces and Spaces 2023, Pittsburgh, USA. Published in ACM Digital Library: doi.org/10.1145/3626485.3626538.
- 2nd Place, Redbricks Hackathon (Ashoka Univ & Mphasis) – Won INR 1.75L for *Health-ucate*, a gamified health education platform (2022).
- 2nd Place, Enactus India Hackathon – Awarded INR 25K for *AR Playground*, an AR-based sensorimotor development game (2022).
